

TESTIMONIALS

**EMMA L.
UNE STUDENT**

Tide Pondz help me stay hydrated through all of my classes and sports practice! I don't know what I'd do without it.

**SARAH M.
UMaine STUDENT**

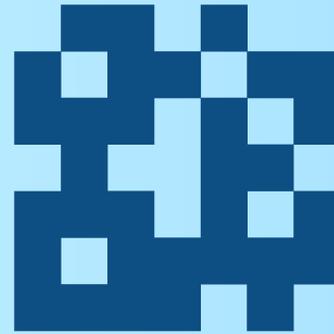

I recommend Tide Pondz to everyone I know. Healthy and environmentally friendly—you can't beat it!

**TOM P.
UNH STUDENT**

Tide Pondz are so small and easy to carry! No more lugging around a big, heavy water bottle for me.

**TIDE PONDZ
HYDRATION REINVENTED**

TIDE PONDZ

HYDRATION REINVENTED

EACH TIDE PONDZ IS A COMPACT, SINGLE-USE HYDRATION POD THAT DELIVERS THE EQUIVALENT OF 8 OUNCES OF WATER IN ONE REFRESHING GULP.

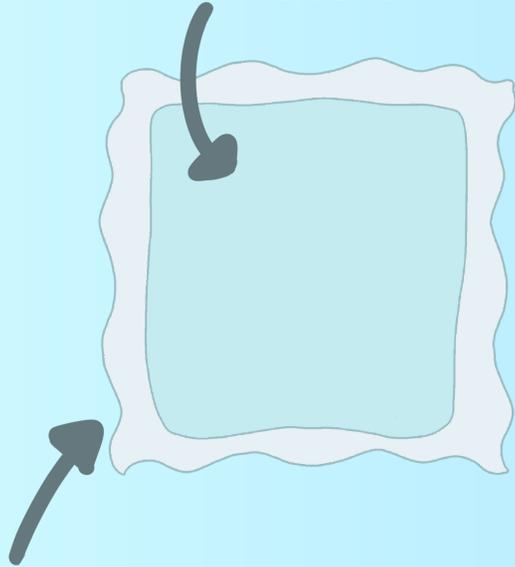

NO BOTTLES. NO BULK.

PERFECT FOR HIKERS, RUNNERS, KIDS, COMMUTERS, FESTIVAL-GOERS, AND ANYONE WHO'S ALWAYS ON THE MOVE.

BIDDEFORD, MAINE

AN EXCITING AND EFFICIENT WAY TO HYDRATE!

Water!

Edible outer coating

- Tide Pondz are **edible water pouches** that provide a quick way to reach your hydration goals.
- Tide Pondz make it easy for busy college students to maintain a healthy water intake so they can focus on succeeding in school!

- The water is encased in a seaweed solution (*don't worry, you won't taste a thing!*) that creates a thin edible barrier.
 - Our seaweed is locally sourced from Atlantic Sea Farms!

atlantic
SEA FARMS[™]

- Water Tide Pondz come in packs of **30** for only **\$20!**
- Specialty Tide Pondz have an added cost of **\$5**, but with a refreshing array of choices! Here are our most popular varieties:
 - Sparkling
 - Plain, black cherry, raspberry lime, grapefruit, and more!
 - Alkaline
 - Electrolyte
- We also carry promotional Tide Pondz with companies such as Poland Springs, La Croix, Smartwater, and many more!

TRY EVERY DROP

From crisp sparkling to smooth alkaline, fruity flavored bursts to THC-infused chill, we've got a pod for every mood. Whether you're into mineral-rich sips or flavor-packed pops, hydration's never been this fun—or this smart.

At Tide Pondz, we're reimagining hydration for a sustainable future. Our mission is to hydrate the masses while eliminating single-use plastic by delivering water in its purest, most planet-friendly form—a delicious, waste-free pod you can eat.
